Physician—C. C. TUDGE, M.B., B.S. (Lond.)

DUDLEY AUKLAND, *Clerk to the Visiting Committee.*

SURREY COUNTY MENTAL HOSPITALS

Annual Report of the Visiting Committee

(Pursuant to the Lunacy Act, 1890, Sec. 190.)

Presented to the County Council at their meeting held on the 27th day of November, 1934.

To the County Council of Surrey.

The Visiting Committee submit their Report for the year ended 31st December, 1933, together with the audited accounts to 31st March, 1934.

At the meeting held on 1st May, Col. the Hon. A. G. Brodrick was re-elected Chairman of the Committee, and Mr. E. A. Medus was re-elected Vice-Chairman.

It is with the deepest regret that your Committee now have to report Col. Brodrick's death, which occurred suddenly on the 18th September last whilst he was on holiday in Scotland.

Col. Brodrick served the Committee for a period of no less than 22 years, during 14 of which he had presided over their deliberations, and the exceedingly able manner in which he led the Committee in their numerous duties compelled the admiration of every member. His tremendous zeal, sterling character, and seemingly inexhaustible energy in the cause of the Committee's work made his services invaluable, and the members realise that his place will be difficult to fill.

The Committee have elected Mr. E. A. Medus as Col. Brodrick's successor, and Mr. W. J. H. Briggs has been appointed to the Vice-Chair.

Six meetings of the Committee and 32 meetings of the Standing Sub-Committees were held during the year. In addition, meetings of special Sub-Committees were held, and frequent inspections of the buildings and grounds of the two Mental Hospitals were carried out in accordance with the provisions of the Statute.

The normal accommodation in the two Hospitals at the date of presentation of this Report is as follows :—

Brookwood.	*Netherne.*	*Total.*
1,606 Beds.	1,480 Beds.	3,086 Beds.

On the 1st January, 1934, there were 48 patients chargeable to out-County Authorities, 96 private patients, 66 Service patients and 89 patients received from other Mental Hospitals under Contract. The total number of patients in the two Institutions was 2,886.

The following tables show the numerical changes in patients at both Hospitals during the year :—

BROOKWOOD MENTAL HOSPITAL.

Remaining, Dec. 31, 1932.		Since admitted.		Discharged recovered.		Removed, etc.		Died.		Remaining, Dec. 31, 1933	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.

1521		205		58		96		81		1491	

NETHERNE MENTAL HOSPITAL.

Remaining, Dec. 31, 1932.		Since admitted.		Discharged recovered.		Removed, etc.		Died.		Remaining, Dec. 31, 1933.	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
460	767	178	321	38	68	47	87	36	55	517	878
1227		499		106		134		91		1395	

The following table shows the number of deaths occurring at the Mental Hospitals during the past two years, as compared with the average number of patients in residence :—

	1932.		1933.	
	No. of Deaths.	Percentage of average No. of Patients.	No. of Deaths.	Percentage of average No. of Patients.
Brookwood ...	107	7.1	81	5.31
Netherne ...	93	8.1	91	6.06

The total number of recovered cases was 164, as compared with 149 in 1932.

The buildings and machinery and other contents have been maintained in an efficient state of repair.

The following items of expenditure need no comment :—

	Brookwood.			*Netherne.*		
	£	s.	d.	£	s.	d.
Ordinary Repairs	7,267	17	3	6,096	19	7
Additions, alterations and improvements under £400	314	14	5	80	19	1
New buildings (voted by County Council) ...	2,768	11	2	13,778	13	11

Sums paid in respect of superannuation allowances during the financial year ended 31st March last, and in the previous year were as follows :—

Brookwood.		*Netherne.*	
1933-34.	1932-33.	1933-34.	1932-33.
£5,721 1s. 1d.	£5,361 8s. 6d.	£3,376 15s. 10d.	£3,227 4s. 6d.

Commissioners of the Board of Control visited both Mental Hospitals during the year, and their reports will be found on pages 26 and 30.

At the request of The Surrey Joint Town Planning Committee the Council decided to agree to the alienation of sufficient land forming part of the Brookwood Mental Hospital Estate to enable a widening of the Bagshot-Guildford Road to be carried out as and when found necessary.

The Council also agreed to hand over to the Woking Urban District Council sufficient land at Brookwood to enable the District Council to construct a road to provide means of access to Heath House Estate which adjoins the Brookwood Mental Hospital.

Two semi-detached houses for occupation by members of the staff were erected at Netherne.

A contract was entered into with the Southend County Borough Council for the reception at Netherne of 11 male and 25 female patients at a maintenance charge of 28s. 0d. per head per week.

It was decided to bring the Mental Hospitals within the central purchasing scheme of the Council as from the 1st April, 1934.

Your Committee passed a resolution discontinuing as from 1st November, 1933, the temporary reduction in the salaries and wages of members of the staffs at the two Mental Hospitals which had been in operation since the 1st November, 1931. The staffs were thus brought into line with other departments of the Council.

During the year under review a gratuity under the Asylums Officers' Superannuation Act, 1909, was paid as under :—

Brookwood.

	£	s.	d.
Widow of Charge Attendant Thomas Huntington	193	9	0

The average weekly cost of maintaining patients at the two Mental Hospitals during the past financial year was approximately 21s. 5d. per head. The average weekly charge for rate-aided patients was 22s. 2d.

Statements showing how the average cost at each Mental Hospital was arrived at are printed on pages 12 (*a*) and 12 (*b*).

At the date of this report the maintenance rate stands at 21s. 7d. having been reduced to that figure as from 1st October, 1934, and is considered sufficient to meet all practical needs for the remainder of the current financial year.

The following is a record of attendances of members for the year:—

Name.	Visiting Committee (6 meetings).		Sub-Committees (32 meetings).	
	Summoned.	Attended.	Summoned.	Attended.

Wootten	6	5	16	11

The Committee once again desire to place on record their appreciation of the devotion shown by the Medical Superintendents, officers, and staff in carrying out their respective duties during the year.

Signed on behalf of the Committee this 12th day of November, 1934.

E. A. MEDUS,
Chairman.

APPENDIX I.

Southwood House,
4, Linden Park,
Tunbridge Wells,
23rd *June*, 1934.

To the Chairman and Members of the
Surrey Mental Hospitals Committee.

Gentlemen,

I have to report the completion of the audit of your accounts and those of your officers for the year ended at the 31st March, 1934.

The average weekly cost for the year of the maintenance of each patient at Brookwood and Netherne Hospitals amounted to £1 2s. 2.905d. and £1 0s. 7.140d. respectively.

Netherne.—Farm Bailiff's Record of Live Stock.—Two store pigs and ten sucklers were shown to be missing when stock was taken by the Steward in October, 1933. The matter was reported to the Committee but no explanation of the deficiency was recorded in the Minutes. The Bailiff, when interviewed at audit, stated that the deficiency was due to an error in his stock book. In January, 1934, he failed to record in his stock book the sale of twelve store pigs; the book and actual stock, however, agreed when taken by the Steward at the end of that month. Such agreement was arrived at through failure to record the addition of new stock.

The two instances viewed together are definite evidence of the unreliability of the prime records of the Farm live stock.

Matters of detail arising on the accounts were discussed with your officers during audit and my thanks are due to them for their prompt attention to all audit requirements.

I am, Gentlemen,
Your obedient Servant,
(Sgd.) E. H. V. WEIGALL,
District Auditor.

APPENDIX II

To the Visiting Committee of the Surrey County Mental Hospital, Brookwood.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present the 68th Annual Report of the Medical Superintendent, together with the Statistical Tables and also the Financial Accounts prepared by the Clerk to the Hospital.

The following table shews the numerical changes in the patients during the year :—

	M.	F.	T.
Number of patients in Hospital on December 31st, 1932	625	896	1,521
Since admitted	80	125	205
Discharged recovered	28	30	58
Removed	33	63	96
Died	49	32	81
Remaining on December 31st, 1933 ...	595	896	1,491

The Admissions.—There were 205 admissions, 38 less than in the previous year and 86 less than in the year 1931, but this decrease is more than balanced by the greatly increased number of admissions at Netherne.

The admissions include 25 voluntary, 2 temporary and 7 private cases, of which latter 3 were voluntary.

The chief factors assigned in causation were : Stress, 17 per cent. ; Heredity, 15 per cent. ; Senility, 11 per cent. ; Syphilis, 5 per cent. ; Alcohol, under 2 per cent. ; and Critical Periods, 18 per cent.

The Discharges.—61 patients were discharged as recovered, giving a recovery rate calculated on the direct admissions of 31.5 per cent., as against 35 per cent. for the preceding year. 39 cases were sufficiently well to be discharged to the care of their friends and 36 were transferred to other Mental Hospitals.

The Deaths.—81 patients died. The chief causes of death being Senility 15, Broncho-pneumonia 20, Cerebral hæmorrhage and thrombosis 6, cardiac diseases 7, cancerous growths 6 and tuberculosis 7.

The dath-rate was 5.5 per cent., as against 7.1 per cent. last year. Of the 81 deaths, 45 were over the age of 65.

Treatment.—As in previous years, employment is the chief agent employed in the treatment of the recent cases and our Reception Hospital and villas have greatly assisted us in our endeavour to give individual attention to these patients.

Induced Malaria, with after treatment with Tryparsamide is used in all cases of General Paralysis.

Accidents and Inquests.—One male and five female patients sustained fractures of bones due to accidental falls. One aged female patient died as the result of an accident prior to admission and an inquest was held on this case, a verdict of accidental death being returned. One other inquest was held on a male patient, the verdict being death from Natural Causes.

Operations.—Major surgical operations were performed on two members of the staff and on one patient, with satisfactory results. This last operation pointed out the deficiencies in our old operating table and a modern table has been purchased.

I have again to report our indebtedness to our Consulting Surgeon, Mr. Higgins.

General Health.—The general health of the patients has been good and apart from an epidemic of influenza in the spring which affected 161 patients and 89 of the staff, we have been remarkably free from serious illness.

Visits.—Two members of the Board of Control visited the Hospital on February 20th and 21st. Their report is appended.

Dr. Forward, on behalf of the Ministry of Pensions, visited and examined all the Service Patients in residence on 30th November, 1933.

Staff.—Dr. Hennelly left on his appointment to the post of Senior Assistant Medical Officer of the Cardiff City Mental Hospital. Dr. Rees was appointed to fill the vacant position of Junior Medical Officer.

Dr. Paton obtained the M.D. degree of his University.

D. H. Evans, Storekeeper, retired on pension after 42 years' service.

Miss Maberley, Head Laundress, resigned at the age of 63 after 29 years' service ; she had contracted out of the Asylum Officers Superannuation Act, 1910, but was given a pension of £55 per annum until age of 65, and afterwards of 10s. weekly under the provisions of the Lunacy Act, 1890.

Charge Attendant J. Kent retired on pension after 31 years' service.

I regret to report the death of Charge Attendant T. Huntington, after 33 years' service. His death was accidental, the result of septicæmia

following a cut on his finger sustained during the course of his duties. He had been in charge of the admission ward for 22 years and performed his duties with great tact and kindness; his death was a severe loss to the Hospital. The maximum gratuity allowed by the Superannuation Act was granted to his widow.

I also regret to report the death of Nurse A. G. Williams on January 29th, from Pneumonia; she was 19 years of age and had only been in our service for six weeks.

During the year 20 members of the Nursing Staff obtained the Nursing Certificate of the Royal Medico-Psychological Association and 39 passed the Preliminary Examination.

Works Department.—The following work was completed during the year:

Provision of four garages at Gasworks Cottages.
Alterations and heating in General Office.
Divisional partitions in two female wards.
Provision of lockers for patients in several wards.
Boundary walk along west and south sides of estate.
Lavatory basins with hot and cold water in wards and Nurses' Bedrooms in Main Building.
General redecoration of wards was proceeded with and the building generally maintained in a good state of repair.

General.—The staff carried out their duties satisfactorily and with unfailing kindness and I should like to thank them for their loyal assistance. I also tender my thanks to the Medical Officers, to the Clerk and Steward, and the various Heads of Departments for their efficient help in the administration of the Hospital.

I am conscious of my steadily increaasing indebtedness to you, Mr. Chairman, and the Members of the Committee, and in presenting this report I should again like to thank you for your confidence.

I have the honour to be,

Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

J. A. LOWRY, M.D.,
Medical Superintendent.

SURREY COUNTY MENTAL HOSPITAL, BROOKWOOD.

CHAPLAIN'S ANNUAL REPORT, 1933-4.

During the past twelve months I have been assisted in the Chaplain's work by my colleagues, the Rev. D. R. Evans and the Rev. C. E. Sylvester. Owing to the lamented death of the former on the 14th November ,1933, I was also assisted for a few months by the Rev. A. P. Le Feuvre and the Rev. J. H. Firminger ; whilst recently the Rev. J. L. Woods, who has been appointed to take Mr. Evans' place as Curate in charge of Brookwood District, has begun his ministry in the Parish and his assistance in the Hospital Chaplaincy. As in past years, the Rev. W. F. T. Hamilton has acted as Locum Tenens on Festival occasions, such as Christmas, Easter and Whitsuntide. Mr. W. J. Sidery, Schoolmaster at Knaphill Council Schools, has also rendered me assistance in the absence of one or more of my Colleagues by occasionally conducting the Morning Prayers in the Recreation Hall.

Services in the Hospital Church.—These have been maintained on the same plan as in past years, that, is, there has been a monthly Celebration of Holy Communion on the first Sunday in each month, with an average attendance at the actual Holy Communion of some 60 patients. There have been two Celebrations on Festivals, one for the staff only at 8 a.m. and one for all at 9.30 a.m. There have been held the regular Services of Morning and Evening Prayer with short Sermon at 9.30 a.m. and 3.15 p.m. (recently changed to 3 p.m.) on the 2nd and 4th Sundays in the month and Service of morning Prayer only on the 3rd and 5th Sundays. In addition, there have been held two Ward Services in the afternoons of the 1st and 3rd Sundays (in M.11 and F.10E or F.8). All these Services, but especially the Morning Services, have been very well attended. The behaviour has been most reverent and attentive and the congregations have invariably joined most heartily in the singing of the Psalms, Canticles and Hymns. There continues to be every evidence of these Services being appreciated by all who are able to attend them.

The Choir, consisting of some 4 or 5 Male Attendants and 5 or 6 of the Nurses, has rendered keen and helpful service in leading the singing, whilst Mr. Graham, the Organist, has shown great devotion and zeal in his work. I would also like to mention and gratefully acknowledge the services of the two male patients Sherlock and Stutchbery as Organ-blowers. Also I would once again gratefully acknowledge the kind work of Nurse Dyke (Charge Nurse in F.10B) assisted by some of the patients, in decorating the

Hospital Church so nicely for the various Festivals and also arranging the Altar Vases with beautiful flowers from the greenhouse Sunday by Sunday. The Hospital Porters on duty have also faithfully done their part in putting the Communion Plate, etc., ready for the Celebrations, for which I am most grateful.

Morning Prayers.—These have been held regularly every morning of the week except Monday at 8.15 a.m. in the Recreation Hall and seem to be appreciated by those who attend. Recently there has been a much better attendance, especially of male patients.

Ward Visiting.—The Infirmary Wards and Recreation Rooms have been visited regularly by my Colleagues and myself week by week, as also have the Workshops and Villas. Cases concerning which relatives or friends have communicated with me as Chaplain have received special attention and correspondents have been informed of the progress and state of mind as such was evident in conversations with patients concerned.

Once more I would like to acknowledge with gratitude the unvarying courtesy and helpfulness of all the members of the Hospital staff which I and my Colleagues have continually received in the course of our ministrations to the patients.

(Signed) DAVID W. MONEY, M.A.,

Chaplain to the Hospital.

Dated 29th June, 1934.

BROOKWOOD MENTAL HOSPITAL.

REPORT FOR THE YEAR 1933.

St. Dunstan's,
Woking.

I visited the Hospital every week to hold a Service for the R.C. patients at 7.15 a.m. on the first Tuesday of the month and at 2.30 on all other Tuesdays.

No deaths occurred among my patients, and there was very little sickness. Special visits were paid on three occasions to patients who were seriously sick and needed the Sacraments.

H. E. PLUMMER,
R.C. Chaplain.

APPENDIX III.

Netherne Mental Hospital,
Coulsdon,
Surrey.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present the 25th Annual Report of the Medical Superintendent, together with the Statistical Tables for the year 1933.

The following is a summary of the changes that have taken place amongst the patients :—

	Males.	*Females.*	*Total.*
In the Hospital on 31st December, 1932 ...	460	767	1,227
Rate supported	392	707	1,099
Private	29	60	89
Service	39	—	39
Admitted during 1933	178	321	499
Total under Treatment	638	1,088	1,726
Discharged during 1933 :—			
Recovered	38	68	106
Relieved	39	72	111
Not Improved...	7	15	22
Not Insane	1	—	1
Died	36	55	91
Remaining on December 31st, 1933 :—			
Rate supported	448	817	1,265
Private	29	61	90
Service	40	—	40
Total	517	878	1,395
Average number resident	498	838	1,336

The Admissions.—There were 499 admissions during the year, and of these 414 were direct admissions, 158 men and 256 women, an increase of 84 over the previous year. The chief ætiological factors were Senility

21.49 per cent., Insane Heredity 19.08 per cent. and Climacteric 11 per cent. Of the types of insanity Melancholia comprised 28 per cent. of the cases, Delusional Insanity 19 per cent., Primary Dementia 11 per cent. and Senile Dementia 9.6 per cent. Sixty-three voluntary patients and 6 temporary patients were admitted.

The Discharges.—During the year 240 patients were discharged, of whom 106 were discharged "Recovered," 111 "Relieved," 22 "Not Improved" and 1 "Not Insane." The recovery rate calculated on the direct admissions was 25.8 per cent., as against 20.3 per cent. the previous year.

The Deaths.—There were 91 deaths during the year. Senile Decay was again the chief cause of death and accounted for 17.5 per cent. of the mortality. The cause of death was verified by autopsy in 61.5 per cent. of the cases. Ten patients died from Pulmonary Tuberculosis. The death rate on the average number resident was 6.06 per cent., as against 8.1 per cent. in 1932. Three Inquests were held. The verdict in one case was "Death from Natural Causes," in the other "Suicide by Strangulation" and in the third "Septicæmia following self-inflicted injuries."

Accidents and Escapes.—Five male and eight female patients sustained fractures of bones as the result of accidental falls. The circumstances attending each casualty were fully reported to you at the time of their occurrence. Four male and four female patients escaped during the year, but were all brought back within a few hours. One male patient, who was taken out to tea by his mother, made his escape from her, and as he was not captured within 14 days, was discharged by the operation of the Law.

Visits.—Deputations from the South Eastern and Mid Eastern Guardians Committees visited their respective patients during the year. Miss I. M. C. Duncan and Surgeon-Captain H. C. Devas, R.N., Commissioners of the Board of Control, visited the Hospital on July 19th. Their report is appended. Dr. E. L. Forward, Headquarters Inspector, Ministry of Pensions, visited the Service patients on December 1st.

The Staff.—Three major operations were performed during the year. Mr. G. H. Steele, Consulting Surgeon, and Dr. C. C. Tudge, Consulting Physician, were as usual of great assistance to us. I am glad to report that Dr. C. C. Beresford obtained the Diploma in Psychological Medicine. Mr. F. Sinclair retired on pension during the year and was succeeded on April 1st as Head Attendant by Mr. A. F. Thornton. Five Nurses and five Attendants obtained the Nursing Certificate of the Royal Medico-Psychological Association, and 7 Nurses and five Attendants passed the Preliminary Examination.

New Buildings.—In February the Male Convalescent Villa of 20 beds and the third Female Villa of 40 beds were opened for patients. The Hospital Block for 80 male and 80 female patients was occupied on May 3rd. The opening Ceremony, which took place on March 11th, was performed by the Earl of Onslow.

Works Department.—List of Works, 1933 :—

New plant house erected. New " Robin Hood " Low Pressure boiler and heating services installed, to heat existing and new greenhouse.

Wireless.—Marconi All Mains Electric Set installed, with loud speakers in 23 wards.

Airing Courts.—Airing Courts laid out for all new buildings.

New Fernden Hard Tennis Court constructed.

Intensive Poulty House erected at Poultry Farm.

Two sets of 20 lockers made for Female Admission Hospital.

New fence of concrete posts and galvanised wire erected in field adjoining cricket field. Concrete drinking trough erected.

Woodplace Farm.—Three additional pigstyes erected.

Side of Dutch Barn covered in with corrugated iron sheets and ends adapted for boarding in with removable boards.

Open Calf Shed boarded in and gateway provided.

Dutch Barn erected in Engineer's yard for steam coal storage.

" Mayville," Hooley, connected to Main Sewer.

Male and Female Wards.—Floors relaid in concrete in Kitchens, Corridors, Storerooms, and Sanitary spurs of F.5, 6, 8, 9, 11 and Male Acute Hospital Wards.

Painting.—Male Wards 1 and 2, outside. Cottages, Netherne Lane. Officers' Residences. Church. New Greenhouse. Railings of Airing Courts for F.1 and F.2 and all Male Wards. Seats in Airing Courts of New Buildings. Thorneycroft 'Bus. North Villa, redecorated throughout. Medical Officers' Quarters.

General.—An epidemic of influenza occurred early in the year, 48 patients and 18 members of the Nursing Staff being attacked. One male patient and one female patient died. The health of the Hospital was on the whole good. There was no case of Enteric Fever or Dysentery during the year. Eleven male and 25 female patients were received under Contract from Southend-on-Sea.

In concluding this, my twentieth and last Annual Report, it may not be out of place to refer briefly to some of the changes that have taken place since this Hospital was opened on April 1st, 1909. It is only in the

retrospect that one realises how much has been accomplished to improve the care and treatment of the insane. The Asylum of 960 beds has become the Mental Hospital of 1,480 beds, now provided with its operating theatre, dental room and laboratory, its X-ray apparatus and its facilities for hydro, electric and ultra-violet ray therapy. The appointment of a Consulting Surgeon, a Consulting Physician and a Visiting Dentist, the holding by the Medical Staff of a diploma in Psychological Medicine, the insistence that the Matron, Assistant Matrons and Sister Tutor shall be doubly trained, a carefully trained and certificated nursing staff, are all factors that make for efficiency and progress. It is hoped that in the near future, in addition to the present Consulting Staff, other Consultants may be appointed to visit regularly and systematically. The Mental Hospital of to-day is no longer a place of isolation. Parole, visits to friends and relatives, shopping drives and excursions, the cinematograph and wireless in the wards keep the patients in touch with current events and help them to maintain an interest in the outside world which on discharge they are able to face with more knowledge and less fear and misgiving.

The Mental Treatment Act, which came into force in 1931, was a big step forward and made possible the early treatment of mental disorder by the establishment of out-patient clinics and the admission of voluntary patients and of temporary patients. The value of Occupation Therapy is now recognised and it will in a short time become as much a routine method of treatment as the treatment of General Paralysis of the Insane by Induced Malaria. The problem of the future, however, is the nursing of the insane. Mental Nursing is notoriously arduous and trying, and the patience, sympathy, forbearance and fortitude required make it increasingly difficult to attract the right type of nurse.

For the last time I wish to express my indebtedness and thanks to my medical colleagues, to the Clerk and Steward, Matron and Head Attendant and to all the other officers and staff for their loyalty, willing co-operation and devotion to duty, and to the Visiting Committee for their sympathetic consideration, unfailing kindness and ungrudging support, never more marked than in times of stress and difficulty, and without which it would have been impossible for me to carry out my responsible and onerous duties.

I have the honour to be,

Your most obedient Servant,

P. C. COOMBES,

Medical Superintendent.

CHAPLAIN'S REPORT FOR 1933.

Netherne Mental Hospital,
Coulsdon.

Every person, who has suffered from a mental, or even nervous breakdown, is liable to a feeling of isolation and alienation from his or her social circle. This often leads to extreme depression and certainly accounts for a proportion of the relapses. Therefore, I have made it my aim to endeavour to remove this feeling of isolation and alienation by inculcating in our Church Life here a spirit of Christian Fellowship which, I hope, may go far to remove any sense of depression. To this end, all that is highest and most hopeful in the Christian Faith has received especial emphasis.

Services have been maintained at the accustomed times, both on Sundays and Weekdays. Special Services have been held in Sick Wards and Holy Communion administered. Counsel and help have been given to those likely to benefit thereby in numerous individual cases.

As the aged and physically infirm form a large proportion of our people, the number of deaths seems very low indeed ; a pleasing reflection upon the devotion of those who tend them. There have been laid to rest in our cemetery 22 members of the Church of England, 9 of whom were males and 13 females. Others have been removed by their relatives for burial elsewhere.

In the presence of representatives both of the County and the County Council the new Hospital Block was opened by the Rt. Hon. the Earl of Onslow, after God's Blessing had been asked on all those who should receive treatment there. A large number of the staff were present, together with representatives from Brookwood. After tea, the Lord Bishop of Southwark inspected the Hospital Chapel.

As Librarian, may I thank the Committee and the British Red Cross Society, for the generous supply of books and literature, which are deeply appreciated.

Ten members of the staff and village were presented for Confirmation, which has resulted in a slight increase in the numbers attending our 8 a.m. Communion Service.

Offertories sent to the Mental After-Care Association amounted to £10 8s. Small sums sent to Orphanages total £1 13s. 4d.

May I thank all those who have been ever ready to help, both officers and staff, for their unfailing courtesy during this year of change and transition.

GEORGE AYLES-WATERS,
Chaplain.

NETHERNE MENTAL HOSPITAL, COULSDON.

REPORT OF THE R.C. CHAPLAIN FOR 1933.

Services—52.

Attendances at Services—1,097.

The patients who were able to attend Mass and receive the Sacraments, as well as the new and sick patients whom I visited during the year, derived great help from the comforts afforded by their religion.

In fact, certain patients whose mental condition seemed very bad gave surprising evidence of beneficent and joyful results in their lives brought about by the ministration of their religion.

Once again I sincerely thank the staff for their courtesy and efficiency in enabling me to carry out my duties.

(Signed) J. J. TYNDALL,
R.C. Chaplain.

APPENDIX IV.

Surrey County Mental Hospital,

Brookwood,

February 21*st*, 1933.

We have, yesterday and to-day, visited this Hospital on behalf of our Board, and we believe we have seen all the patients at present in residence. The numbers are as follows :—

	Male.	*Female.*	*Total.*
Voluntary	5	1	6
Temporary	—	—	—
Certified	596	885	1,481
Totals	601	886	1,487

One patient is on leave—a female certified patient. The number on the Statutory Books is therefore 1,488. One of the male voluntary patients is here as a private patient and so are 4 female certified patients. Twenty-eight Service or ex-Service patients are also in the private class.

Upon the figures submitted to us there is an excess of accommodation on both sides of the Hospital, both by day and by night. By day for 189 males and 71 females. By night for 62 males and 56 females.

The weekly maintenance charge of rate-aided patients is 22s. 2d. and for private patients 42s. The average weekly maintenance cost is 22s. 1.258d.

One hundred and four males and fifty-four females enjoy the privilege of parole within the grounds, but no patients are given parole beyond the estate. We understand, however, that in suitable cases on the male side special permission is accorded from time to time for visits beyond the estate. Two villas on each side are open to the gardens of the villas, and 3 male villas and 2 female villas are open to the grounds.

Since the last visit four new villas—2 on each side—have been opened and are now in occupation. We visited these and noted with pleasure the many amenities they afford both for the convalescent patient and the better type of chronic patient. Many of the patients we spoke to in these villas expressed their pleasure in their new surroundings. These villas will, we are sure, be of the greatest utility to the Hospital.

During our tour of the Hospital we attempted to talk to as many of the patients as possible and many of them took advantage of this to prefer requests—the majority of which were for discharge—for which in our opinion they were not fitted. There were few complaints and those which were made were of no substance.

It was quite obvious to us that the patients in this Hospital receive most kindly care both from the medical and nursing staffs. This is reflected in the contented and quiet demeanour of the vast majority of the patients.

The wards were in good order and comfortably furnished. We were pleased at the large number of vases of spring flowers to be seen. A number of patients' lockers have been added since last visit. We are sure these are appreciated by the patients and we hope their number will be increased from time to time.

We thought that some armchairs might be added in some of the day-rooms, particularly to that of F.10.

Many of the wards and passages have recently been redecorated in a pleasant shade of yellow. Many of the ward gardens, particularly on the male side, are worthy of mention. Much has been done to make them attractive and many have well laid-out flower beds.

In our visit to the wards we paid particular attention to the arrangements for dealing with an outbreak of fire and found these to be quite satisfactory.

Since last visit a smoke screen has been erected on the first floor of the Isolation Hospital and this is kept closed at night.

We have paid particular attention to the question of the patients' library here and we have been glad to find that much is being done to cater for the individual tastes of readers. Books are obtained from the Red Cross and from purchases second-hand from the circulating libraries. These books are issued from a central library at which patients can personally change books and they are also issued direct to the ward book-cases, and books in the latter are circulated from ward to ward every two or three weeks. The staff are also able to borrow from the central library and they are able to obtain technical works from the small library in the Nurses' lecture room.

Although many of the patients here are usefully employed, we would like to stress the importance of further efforts to occupy those patients who normally do very little or no work. We realise that but for the economic crisis of eighteen months ago this Hospital would now be equipped, like

so many sister institutions, with an occupation centre and that the lack of a proper centre has handicapped the development of treatment by occupation here, but we hope it will not hinder it unduly in the future.

In this connection we would like to suggest to the Visiting Committee that leave might be granted to the Medical Superintendent or to one of his medical staff in order to join the two day visit to a Dutch Mental Hospital at San Poort which is being organised in April next for the benefit of Medical Superintendents and others interested in the therapeutic value of occupations in mental disorders.

The patients of this Hospital enjoy a generous and varied diet. We visited the kitchens both yesterday and to-day, and saw most appetising dinners being prepared. The dinner yesterday consisted of roast mutton with roast potatoes and swedes with currant pudding, while the dinner to-day was meat and potato pie, turnips and rice pudding.

The staff of nurses is as follows :—

	Male.	*Female.*	*Total.*
Charge	14	16	30
Ordinary	84	104	188
Night	14	17	31

Forty males and 35 females are certificated or registered as Mental Nurses and 40 males and 28 females have passed the Preliminary Examination.

The mortality rate for the year 1932 was 7.1 per cent. Since the last visit there have been 46 deaths—30 males and 16 females. Post-mortem examinations were held in 16 cases, this being only 34.7 per cent. of the total. An inquest was held in the case of one female patient who died from pneumonia following a fracture and toxæmia caused by a bedsore. The fracture was accidental and occurred before admission, and the bedsore was present when she was admitted.

The chief causes of death have been Pneumonia (19), Tuberculos is (5), Organic Brain Disease (4).

Of the 19 deaths from Pneumonia 13 were secondary to Influenza and occurred during the past 7 weeks. The epidemic of Influenza started in January in the male side and has now practically subsided, 104 male and 56 female patients and 40 male and 42 female members of the staff have been attacked. The infection was most virulent on the male side, and all the 13 patients who died from broncho-pneumonia following this disease were males. A case of para-typhoid fever was discovered on the female side in November ; the source of infection could not be traced.

At the present time 6 male and 8 female patients are notified as suffering from Tuberculosis. Since the last visit 5 patients have died from this disease.

The Hospital has been free from Dysentery for some years.

There have been 6 cases of injury involving fractures of bone. One patient sustained a fracture of the leg as a result of being pushed by another patient. The remainder of the injuries were caused by accidental falls.

Apart from the outbreak of Influenza the general health of the patients has been very good.

We were sorry to hear that the Clinic at Guildford has attracted very few patients for treatment and advice, and we hope that it will become more widely known in future. If medical practitioners could be persuaded to send more cases to this Clinic we feel that the benefits of voluntary treatment under the new Act would be more fully appreciated in the district and the number of voluntary patients under treatment in this Hospital would thereby increase.

We have been accompanied throughout our visit by the Medical Superintendent, Dr. Lowry, and the members of his medical staff and we are grateful to him and to them for the assistance they have rendered us.

(Signed) I. COFFIN DUNCAN.

H. C. DEVAS.

Commissioners of the Board of Control.

APPENDIX V.

Surrey Mental Hospital,
Netherne,
July 19th, 1933.

We have to-day visited this Hospital and we have been much interested to see the new Hospital Block and the new Villas which have been opened and put into use since the beginning of the year. The Hospital Block is well designed and equipped for its purpose—the nursing of the sick. The Verandahs are a particularly pleasing and useful feature of the design and enable patients to be nursed in the open under ideal conditions. Attached to the Hospital Block is a well-planned and fitted operating theatre which is bound to be of great value to the Institution.

The new Villas on both sides are valuable additions to the Hospital, and we were very pleased to notice the many features they embody for the comfort of the patients living in them. The Convalescent Villas have already proved to be valuable adjuncts to the Admission Hospital. The condition of all day rooms and dormitories was excellent. Many of the better wards are furnished with lockers for the patients' private possessions, and the day rooms on the whole have really comfortable and home-like furniture. It was particularly noticeable that there were a number of deck-chairs in the ward gardens used by the better type of patient. As the day has been such a fine one a number of the patients were sitting in them. The day rooms were well decorated with flowers and it is obvious that the nursing staff take a pride in making the wards as attractive as possible.

During the course of our visit we believe we have seen all the patients in residence and spoken to all who showed any desire to converse with us. Complaints, except on the score of detention, were few and the patients seemed to be, on the whole, a happy and contented community and in receipt of careful and kindly nursing care.

Many of the patients were wearing their own clothes, but we should like to suggest that for those female patients who are unable to do so, a less institutional type of dress might be designed. The print dresses worn to-day by so many of the patients were alike in design and of a uniform striped pattern. We were glad to find that efforts are going to be made to introduce more variety.

We visited the kitchen whilst dinner was being served and afterwards saw the patients at dinner in some of the wards. The meal consisted of

meat pudding, potatoes, cabbage and sultana pudding and bread. The diet appears to be both liberal and varied. Whilst in the kitchen we noticed that the older Hobart mixer was in need of further protection against accident, both with regard to the mixer itself and particularly with respect to the mincing addition—the latter we thought really dangerous.

A number of patients are usefully employed throughout the Institution and we were pleased to observe a number of female patients working in two of the smaller gardens and obviously taking a pride in the flower-beds. There is also a good deal of fancy-work, lace-making and crocheting carried out for what is known as the "Bazaar Fund." So far, however, there has been no organised occupation therapy at this Hospital. This form of treatment is now recognised to be of great value, and we hope that it will not be long before this Institution enjoys its benefits. We discussed this important question with the Medical Superintendent, Dr. Coombes, and he received our suggestions most sympathetically. We were glad to hear that a suggestion was under consideration to use the former cricket pavilion as a room in which occupation classes could be held.

The numbers in residence to-day are as follows :—

	Male.	*Female.*	*Total.*
Voluntary	22	18	40
Temporary	—	2	2
Certified	493	833	1,326
Totals	515	853	1,368

In addition 2 male and 7 female certified patients are at present on leave or on trial. This gives a total on the statutory books of 1,377 patients. Sixty-eight males and 61 females are classed as private patients (2 of the men and 9 of the women being on a voluntary basis) and of these 39 of the men (1 a voluntary patient) are in the Service or Ex-Service class. Upon the figures submitted to us there is a surplus of accommodation both by day and by night on both sides of the Hospital, there being vacancies for 73 males and 30 females.

The weekly maintenance charge for rate-aided patients is 22s. 2d. and for private patients from 31s. 6d. to 42s. The average weekly maintenance cost is 21s. 7d.

Forty-five males and 18 females enjoy parole within the grounds. Two villas on each side are open to the grounds and 2 male villas and 3 female villas are open to the ward gardens. The male and female infirmary wards are also open to the ward gardens.

The present staff of Nurses comprises 14 men and 23 women of charge rank, 66 men and 90 women ordinary Nurses, and 12 men and 16 women on night duty. Forty-nine men and 37 women are certificated or registered as mental nurses, and 7 men and 14 women have passed the preliminary examination.

The general health of the patients has been good. To-day there were comparatively few in bed and the majority of them were receiving benefit of open-air treatment on verandahs. We were pleased to notice that it is not customary to confine patients to single rooms unless absolutely necessary to prevent noise from disturbing the other patients. There were very few such cases to-day.

The mortality rate for the year 1932 was 8.2 per cent. ; since the last visit there have been 58 deaths, 26 men and 32 women. Post-mortem examinations were made in nearly 60 per cent. of the deaths. Inquests have been held in 3 cases. In one of these death was found to be due to natural causes, in the other two to self-inflicted injuries. Details of these cases have already been forwarded to our Board.

The chief causes of death have been Senile Decay 10, Heart-disease 9, Pneumonia 7. There have been 10 serious but not fatal casualties since the last visit. Three of these were caused by violence on the part of other patients, the remainder were due to accidental falls.

Apart from a mild outbreak of Influenza in February there have been no cases of epidemic or zymotic disease. Deaths from tuberculosis numbered 4, and there are reported to be 8 patients suffering from this disease at the present time.

Useful work has been carried out at the Clinic which is held by the Medical Superintendent at Kingston.

Our visit has been a most interesting one and we congratulate the Visiting Committee and the Medical Superintendent on the progressive lines upon which the Hospital is administered.

(Signed) I. COFFIN DUNCAN.

H. C. DEVAS.

SCALE OF ISSUES.

BREAKFAST.

Bread. M. 11½ ozs. per day. F. 8 ozs. per day.

Margarine. M. and F. 1 oz. per day.

Cocoa. M. and F. 1 pt. each. Per 100: 20 ozs. Cocoa, 40 ozs. Sugar, 8 pts. Milk.

Marmalade. M. and F. 2 ozs. each.

Sausage Meat. M. and F. 3 ozs.

Potatoes. M. and F. 3ozs. each.

Ham and Chicken. M. 2½ ozs. F. 2¼ ozs.

Corned Beef. M. 3 ozs. F. 2½ ozs.

Porridge. Sugar ½ oz. each. Oatmeal 1½ ozs. each. Milk.

TEA.

Jam. M. and F. 1½ ozs. each.

Tea. M. and F. 1 pt. each. Per 100: 16 ozs. Tea, 40 ozs. Sugar, 8 pts. Milk.

Honey. M. and F. 1½ ozs. each.

Seed Cake. M. and F. 3 ozs. each.

Currant Cake. M. and F. 3 ozs. each.

Fruit, Apples, Lettuce, etc., issued when in season in lieu of Jam or Honey.

DINNER.

1st Course.

Roast and Boiled Beef. M. 5½ ozs. F. 4½ ozs.

Potatoes. M. and F. 6 ozs.

Vegetables. M. 6 ozs. F. 5 ozs.

Vegetable Soup. M. and F. 1 pt.

Barley	M. and F.	¼ oz.	each
Pea Flour	,,	⅛ oz.	,,
Split Peas	,,	1½ ozs.	,,
Rice	,,	¾ oz.	,,

Carrots, Celery, Onions, Turnips and Potatoes.

Roast Mutton. M. 7 ozs. F. 6 ozs.

Liver. M. 3 ozs. F. 2½ ozs.

Bacon. M. 2 ozs. F. 1¾ ozs.

Meat and Potato Pie. Meat, M. 3½ ozs. F. 3 ozs. Potato, M. 3 ozs. F. 3 ozs.

Irish Stew. M. and F. Meat 2 ozs. Carrots, Onions, Turnips, and Potatoes.

Salad. Eggs, Mustard, Sugar, Vinegar, Cucumbers, Onions, Lettuce, Radishes, Tomatoes.

Roast Pork. M. 5½ ozs. F. 4½ ozs.

Hot Pot. M. Meat 4½ ozs. F. 4 ozs. Potatoes M. and F. 3 ozs.

Mint, Apple and *Horseradish Sauces* served with appropriate joints.

2nd Course.

Baked Plum Pudding. Flour M. 2 ozs. F. 2½ ozs. Raisins, M. and F. ½ oz. Dripping, M. and F. ¾ oz. Cream of Tartar, Carbonate of Soda.

Currant or Sultana Pudding. Flour M. 2 ozs. F. 2½ ozs. Fruit M. and F. ½ oz. Suet, M. and F. ¾ oz.

DUDLEY AUKLAND, Responsible Accounting Officer.

21th day of June, 1934.

I hereby certify that I have compared the entries in this Financial Statement with the accounts of the Local Authority relating thereto and that the regulations with respect to this Statement have been duly complied with.

I hereby further certify that I have ascertained by Audit the correctness of this Statement, and that the expenditure of the said Authority during the year ended the 31st March, 1934, included in this Statement and allowed by me at Audit is Two Hundred and Six Thousand, Nine Hundred and Eighty-nine Pounds, Fifteen Shillings and One Halfpenny.

As witness my hand this 26th day of June, 1934.

A. R. H. HOBBS,
Asst. District Auditor.
